IMPRESSIVE DESIGN

The expansive bathing platform on the FJORD 53 XL serves as a base for water sports activities. Integrated steps make for easy access.

G1 →

Storage area with hydraulic opening, sunpad, 2 foldable cockpit tables with electric high/low leg, cockpit benches with reversible backrest

← Tender garage:
The FJORD 53 XL can
accommodate a tender under
the sunpad in the stern.

Maximum shade: →
An integrated sun awning can
be extended from the T-top
to cover the sunpad at the rear.

EXTREME PRECISION

Command centre: From their three ergonomic pilot seats, the driver and his copilots enjoy an integrated helm station with three 19-inch screens. Inbetween, the companionway leads down to the cabins.

CREW CABIN LAYOUT

MYFJORD SAFETY CLOUD

The MyFJORD Safety Cloud enables real-time monitoring of your FJORD: anytime, anywhere, simply via the app. Protect your precious yacht remotely, as if you lived on board. You can organise maintenance and service with unprecedented ease. Thanks to the electronic logbook, a smartphone is all you need to share your cruising experiences with others. In short: this system will add a whole new dimension to your cruising passion.

Sensors
Continuous monitoring of battery charge and tank levels

Insurance
Tailor-made insurance offers from Pantaenius are available via the app

Report Issue
Direct contact with the dealer for any questions, via chat function

Remote switching
Turn the yacht's lights on or off via smartphone

Shop & Parts
Feature for ordering equipment, supplies and spare parts

Maintenance
Service intervals are digitally stored and saved in the service history

Alerts
Alarms for battery, bilge, shore power, anchor, collision or theft

Trips
Automatic, digital logbook for every mile travelled

Manuals
Manuals and instructions for all components are stored electronically

SMART SOUND

Brilliant sound meets high-class living

Audio Head Unit & Smart Control

ALPHATRONICS SMART TV The super-slim, wide-angle LED display provides an optimum view and blends seamlessly into FJORD's puristic design.

The first impression: brilliant clarity. Even the subtlest acoustic nuances are fully revealed. Four pairs of speakers – three on deck and one for the TV below – overwhelm with an outstandingly rich sound. Pulsating power is the second thing you'll notice. With up to 1,000 watts of output, the elegantly-built speakers deliver a breakthrough sound that makes the air dance. And thirdly, you'll enjoy the thrill of cutting-edge technology. Control the system wirelessly, with an intuitive and flexible interface. This is the connectivity of the future. Sunbathing on the foredeck accompanied by relaxing tracks, whilst others party in the cockpit to vibrant beats? Just split the deck into two independent sound areas. Each zone has its own flexible audio options and is intuitively controlled via touchscreen – from the chartplotter or from a smartphone.

A superb TV Experience – Immaculate viewing from all angles

The Alphatronics smart TV system as part of the MyFJORD sound theatre was designed especially for maritime needs. An innovative wide-angle LED display (178 degrees, horizontal/vertical) enables you to watch the TV screen unobstructed from every viewing position. Built-in speakers fill the master cabin with an astonishing sound. The tuner comes in a separat unit: For technical updates (based on Android operating systems) just the control box will be exchanged, the TV stays in place.

BE UNIQUE. CREATE. COMPOSE. EXCITE.
